Hi Kelly,

I haven't received invitation yet. Would you mind sharing what is the email address sending this?

Best Regards,

Nicole Shen | China & SEA Lead | [Loopearplugs.com](https://loopearplugs.com) | +86 13402095209 | [Book a meeting](#)

主题: Google Migration Testing

Hi Nicole & Morris,

You should have received an email invitation to access the system. These are the steps to complete the checks; but if at all possible - we would like to do this in a call, so if at all possible, would this be possible today or tomorrow (given timezone differences of course)?

Step 1: Set your password

- Open the email you received
- Follow the link to create your password

Step 2: Download and install the client

- After setting your password, download the client using the link provided
- Log in using the following details:
 - **Organisation name:** loopearplugs
 - **Username:** your email address
 - **Password:** the one you just created

Note: You will need to log in during installation.

Step 3: Test the connection

Once installed, please test if everything works:

- Open this test web server:
<https://10.0.100.3>
- Try accessing Google services:
 - Gmail (even just reaching the login page is fine)
 - A Google Doc (Just a working doc; you may recognize the content)
<https://docs.google.com/document/d/1FkQj5AJZKh2NUZ4i4SsPigH6dxxoyVnXtzHcLeNWpLM/edit?usp=sharing>

What we're checking

We want to confirm that:

- The client connects correctly
- You can access internal and external services

Looped in and caffeinated,

Kelly Crabbé
